

Pram Shaped Card

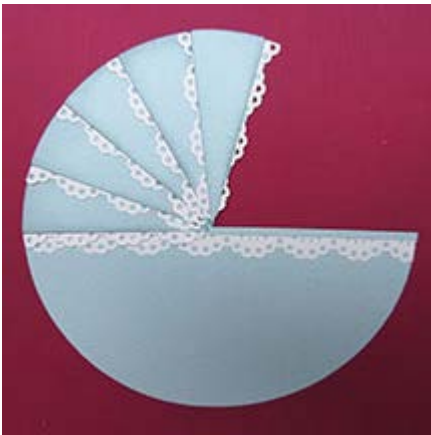

Project and template designed by Sara Sandberg

Step 1

I have used a Martha Stewart border punch to create lace to add to the edges of my pram pieces. Inking the edges of the pieces gently with a sponge is a great way of adding depth too.

Step 2

Add decoration to the pram side, then add your pram hood pieces slightly overlapping.

Step 3

Glue your baby head from behind so that he is peeping out, and the little hands on front.

Step 4

Add glue above the fold line of back piece and stick to front. Add back wheels lining up with front.
