

Sunshine Card Instructions

Project and template designed by Sara Sandberg

Step 1

Cut out your template pieces. I have drawn a dotted black line around the outside as added detail.

Step 2

Add the yellow pieces to the card as shown above.

Step 3

I have used dimensional pads under the centre piece to raise it up slightly.

Step 4

If you are cutting by hand, you may find it easier to cut the swirl out and add it on top of a solid piece rather than cutting it out of the centre.
